

The Carson Daily Appeal

CARSON CITY:

Thursday, September 11, 1873.

DISTRICT COURT PROCEEDINGS.—Hon. C. N. Harris, Judge. Wednesday, September 10. State vs. Burrell, Thompson and Casey; Burrell having pleaded guilty to the charge of burglary at Empire, was sentenced to two years and six months in the State Prison for that offense; and for the Baltimore Restaurant burglary he and his associates in crime, Casey and the boy Thompson, were each given a term of five years. This fixes Mons. Burrell for seven years and a half. It seems to us that the Court was pleased to fix a needlessly heavy penalty upon the lad, Thompson. It is likely, no doubt, that he is a natural and irreclaimable rogue, already; but he will be a confirmed and hopeless thief and outlaw if he should serve out his term and then be turned loose to prey upon the community. We are aware while yet modestly denouncing the severity of this sentence that the boy Curran for whom we besought a pardon last winter, and who was pardoned, had hardly got out of prison before he and another hoodlum committed a most glaring highway robbery, and that that hard case may be cited as against the exercise of clemency toward young criminals; but still we think it well to give a youth of eighteen or less, like this Thompson boy, the benefit of whatever of merciful consideration it may be prudent to exercise toward a scamp whose board has not yet grown.

THE EMPIRE DEBATING CLUB held its regular session as announced on last Saturday night. The discussion of the question involving the virtue of republican institutions was ably conducted and ended in a rejection of the Resolution. The glibness of our government was upheld and voted sound and Lebo modestly but with becoming pride bends under the trophies of a conqueror while Oats, his opponent, was thrashed and pulverized into infinitesimal meal. The question which comes up for debate next Saturday night is shadowed forth in these dangerous words, to wit: "Resolved, That the affection existing between man and woman is an attachment prompted by interest." We heard the names of the regularly appointed debaters whose duty it will be to dispose of this question but neglected to put them in writing and have forgotten them.

WHO HAS DROPPED HIS TEETH?—A colored man of honest fibre found yesterday an artificial mouth-roof with a setting of five teeth attached to the same and brought it to our office in order that we might announce the treasure trove and thus inform the now toothless person who owns the same of the present whereabouts of his property. It's like a man's losing his wooden leg, or gambling off his glass eye or hypotheccating his wig. We are reminded of that preposterous question, "Niggers, whose heel's dat a burnin'?"—as if a person of "previous condition" could fall asleep and scorch his heel until it gave out an odor as of broiling Ham, and he not know it! This errant bit of dentistry may be had by the owner upon application at this office, and the production of the requisite oral testimony.

DRUNK AGAIN.—Overland Pat, whom we let off with a lecture for his Sunday spree (judgment in pursuance of his conviction of fire, the following which we clip from the Gold Hill News is instructive and interesting: The dilapidated front of the Root building, C street Virginia, destroyed by the terrible explosion and fire of a few months ago, is adorned with the following inscription in bold black letters on a white canvas sheet, eight or ten feet square. Root calls it his "drop curtain." "Take cheap insurance; they are prompt for premiums, but don't pay a cent on losses. State Investment; Home Mutual; Triumph of Ohio. They will pay when Mooney's bank opens." Mr. Root is apparently a little sore-headed over the idea that Kennedy & Mallon, who were lessors and occupants of the building at the time of the disaster, have received their insurance in full from the following companies, viz: Imperial, Commercial Union of London, Fireman's Fund and Northern Assurance Company of London, while he from local American companies has not received anything, with a loss of over \$40,000. Whatever may be the cause of disagreement between Mr. Root and those insurance companies he has dealt with and expected to make good his losses, we know not; but that drop curtain hangs there in full view of all passers by, and everybody reads it. In fact, it is one of the public sensations, sufficient for an item, anyhow.

JUSTICE COURT.—Patrick Kennedy was found in Chinatown night before last by Officer Stern in a state of intoxication and partial nudity. He had been stripped of his reason and his corporeal habiliments and was altogether in a melancholy plight. He was escorted to the station house and there locked up and a charge of indecent exposure was preferred against him. He got \$40, or 20 days in the jail. He took the latter alternative. We saw Mr. Stern in the morning considerably bringing poor Pat's clothes to him. They were discovered in a house in Chinatown.

THE INFANT PHENOMENON and small wonder, Master Ellis Brown, the five year old orator, will be here and exhibit his surprising powers next week. He is described as possessing talents that are exhibited by but few adults and as having a memory and understanding of the subjects whereof he declaims prodigious to contemplate. We believe it is intended that he shall appear at the Theater.

WE LEARN that the quartz croppings discovered in the Pine Nut range are attracting great crowds of prospectors and others, and that the original discoverers have bonded their claim to General John B. Winters and associates for \$50,000. Rumor has it that this is the long looked for Comstock extension. Hope it may so prove to be.

EDITOR APPEAL.—Permit me through your columns to make some explanation in regard to Resolutions passed by Warren Engine Company, at their meeting last Saturday, to which you refer in yesterday's paper, rescinding the resolution to sell our engine to be a wise action, but could not approve of the one passed not to run outside of the city limits. Now, as a question of general interest to the public and firemen particularly is raised thereby, I feel that I could explain something and at the same time give my opinion as to the management of fires, lately, in Carson. In the first place, the resolution passed by the Warren Engine Co. rescinding the one to sell the engine, was not done with any conclusion not to take charge of the steamer; it was passed because a certain committee who were instructed to advertise and otherwise offer for sale the Warren Engine had made no effort whatever to sell it, nor made any report. In fact, the company being kept entirely in the dark, by the same committee in charge of the steamer, as to what was going to be done with it, and plainly seeing a movement on foot which showed strongly that the Warrens were not to get charge of the steamer, but that a new company was about to be organized to run it, then if the Warrens did not wish to be broken up or disbanded it showed no particular wisdom but a necessity to keep our engine. The 2d resolution which the Editor can't fully approve of, I would say that where there are only two fire companies in Carson at present it is very imprudent that no regulation should exist (in case of fire out of town) as to require at least one company to remain at home, in case of fire in the city, to protect city property first, wood piles next. I think this latter action of the company could be well considered the wisest of the two. As to the Board of Town Trustees they should proceed to devise an Ordinance to establish a Regular Fire Department in Carson as the Editor recommends, with chief engineer and other officers to be elected. From observation in the management of fires for the last ten years past in Carson by the firemen, I am of the opinion that a fire department with chief engineer and other officers necessary has proved a failure, whole blocks used to burn down, there was ten fires then where there is one now, including wood piles four or five miles out of town. I think the citizens can hardly ask for any better protection than they now have by the two companies, the Curry boys are a good, watchful and active company, the Warrens can be made a good company by expelling such members as never pay their dues, never assist in getting the engine to work, and do nothing, but wish to have their name on the roll call to avoid jury duty. The Warren company well cleaned up will then become strong enough to draw their machine (even should it be a giant) as quick to a fire as any, but as matters look now the Warrens will be split up and lack strength to do any service, if another company is organized. This unnecessary expense to organize a fire department could be avoided, those that pay taxes this Fall will not favor a fire department. In connection with the above I would propose the calling of a meeting of citizens of Ormsby county to receive the Report of the Committee who have worked faithfully and hard enough to get the steamer here and thus far paid off, let such a meeting decide as to who shall take charge of the Little Giant, and whether or not a new fire department should be organized.

5500 Worth of Sheet Music. At H. Fred. Brooks's noted store, for imported scores, to be sold, stationery, musical instruments, cheap jewelry, hats, etc., at Theater block, next door to Mat. Rinkell's butcher shop, Carson City. Agency for all the California papers, Gold Hill News, Pictorial and Magazines.

CARSON CITY JOCKEY CLUB.—The club met at the Magnolia last night and was called to order by President C. N. Netts. The Secretary read the minutes of the last meeting, all of which were approved. The club book was opened for membership. A goodly number put down their names. On motion a committee of four was appointed to solicit money for purses for the races to come off over the Carson course. Messrs. John Rosser, A. A. Smith, T. B. Winston and Joe Rosenstock were appointed as such committee. A committee of two was also selected on rules to govern the business action of the club, and to suggest such racing rules as the members may adopt. The feeling in the club was for the adoption of the California rules. The club adjourned to meet at the Magnolia on Saturday September 13th at 8 o'clock P. M. As over fifty citizens were elected members, the next meeting will without doubt be a full one.

For so many years past that the memory of man runneth not back to the time when it was not so, there has been a water course running down on what is now the south side of King street above Minnesota; and in the march of time, and by its own washings and gurglings that water course has worn a deep gully into the epidermis of the earth and thus caused a quite deep and hugely ugly ditch thereabout; and so it happens that we are glad to announce that our vigilant county authorities, being urged thereto from time to time by our persistent Celtic fellow citizens, Mr. Sweeney, are causing to be built an extension of the flume which passes across the street near the site of the old, original Wagner & Kline Brewery. This will make it easy to fill up the big slough on the corner this side of the Catholic Church, improve the building lot on which Sweeney has just built a big stable, and put things about there in better shape, generally.
